Levy of lighting tax by Bilikere Village Panchayet in Hunsur Taluk Re -

SIR,

In forwarding herewith the records received from the Deputy Commissioner, Mysore District in the matter of levy of lighting tax by the Village Panchayet of Bilikere, Hunsur Taluk, I have the honour to state that it is reported by the Deputy Commissioner that the Village Panchayet proposes to provide 20 Electric lights for street lighting and that this proposal costs the Village Panchayet Rs 597/- per annum and that the present income of the Panchayet is not adequate to meet this expenditure also. The Village Panchayet has therefore resolved, after observing the prescribed formalities to levy for this purpose under Section 37 of the Village Panchayet Regulation an optional tax of annas four on every rupee of the compulsory tax now being levied by the Village Panchayet. It is calculated that by this additional levy a sum of Rs 150/- will be realised. In these circumstances the Deputy Commissioner recommends sanction to the proposal of the Village Panchayet.

2. I recommend that sanction of Government may be obtained to the levy of the optional tax as proposed by the Village Panchayet and supported by the Deputy Commissioner.

I have the honour to be,
Sir,
Your most obedient servant,

G. Rudrappa

The Deputy Commissioner,
Kadur District, Chikmagalur.

Sir,

In continuation of my letter No. L.B.1-84/33 dated the 27th November 1933 requesting for a special grant of Rs. 10.000/- for completing the well works now remaining incomplete, I have the honour to state that the working season for pushing on well works having now commenced, the completion of all incomplete works is being much urged by the people of the localities concerned, but however much pressing the completion of such well works be, their further execution has not been possible to be arranged for unless the sanction of Government to the grant of Rs. 10,000/- applied for is accorded.

2. In this connection it may not perhaps be out of place to state briefly the system adopted and pursued in respect of providing wells during the previous constitution with a view to gauge the number of well works undertaken and completed during the term of my predecessor.

3. With the transfer of the Board's administration to the non-official President as many as 43 well works were handed over by the Deputy Commissioner and Ex-officio President of the District Board to the elected non-official President when the latter took charge of the District Board in June 1930. In addition thereto 16 fresh works out of those that were frequently urged for which demanded in the opinion of the then President immediate attention and preference and which he considered could no further be deferred without serious inconvenience to the people for whom

they were required were also sanctioned making up in all 59 works for execution during his triennium. 37 of these well works were got completed at an aggregate cost of Rs. 34,742/- and out of the remaining 22, 7 works that could not be started at all for some reason or other were finally abandoned while the other 15 well works have had to be left incomplete in various stages of progress for want of sufficient allotment. A few of them could have however been completed had only the Government retained the provision made for them by the Board in their Budget for 1931-32. Certain amounts due to the contractors held under reserve as per rules and balance rates are also due to a few of them in respect of works so carried out and these payments had been with held only for testing the soundness of the work after the lapse of a certain period. Now on the one hand the contractors concerned are now been pressing for the immediate payment of their dues and the adjustment of their claims do not admit of any further postponement while on the other, the people of the villagers whose well have been left incomplete are very much pressing for the completion of their wells on account of their urgent need for a supply of good drinking water and their prayer cannot also be brushed aside in all fairness and without any great inconvenience to them.

4. Under these circumstances the need for the allotment of Rs. 10,000/- already applied for has been a pressing one and I therefore request that the Government be pleased to accord their immediate sanction thereto at least as a special case in sympathetic consideration of the facts set out above. Immediately on receipt of Government Order sanctioning the said allotment arrangements will forthwith be made to bring all incomplete works to completion before the close of the year.

5. Further I beg to represent that during the course of this short period of six months of my administration wherever I go I see people very much clamouring for the grant of their primary need viz drinking water wells. Popular Institutions as these local bodies are expected to be they are in all fairness bound to concede the popular demand, but they feel themselves however quite helpless on account of their financial stringency and consequently they are

seriously handicaped to meet the just demands of the people however urgent and necessary they may be found to be. I shall therefore place this problem before the District Board at their ensuing meeting for their consideration and submit their decision for the orders of Government in due course.

6. In the meanwhile I strongly appeal to Government that they will be pleased to most sympathetically consider the need and the urgency of completing the existing incomplete well works and accord their kind sanction as a special case to the grant of Rs. 10,000/- already applied for in my letter of the 29th November 1933 to enable me to complete all the works before the close of the official year.

Sir,

With reference to your letter No.L.B. 1-84/33 dated 27th November 1933 stating that several well works remain incomplete in the District and soliciting sanction to a grant of Rs.10,000 for completing the works, I am directed to state that no additional grant is possible. If the District Board can find about Rs.4,000 from its sanctioned grants by reappropriation, a sum of Rs.1,500 may be spared out of the reserve grant kept by the Deputy Commissioner for emergent works, so that with the total sum of Rs.5500 such of the incomplete works as may be decided to be pushed on to completion may be attended to during the year. I am accordingly to enquire if the sum aforesaid can be found by reappropriation and if so, from what head in the Budget of the District Board.

SIR,

Re: DISTRIBUTING OF THE GRANT FOR D.W. WELLS IN THE KADUR DISTRICT DURING THE YEAR 33-34.

In continuation of this office Letter No.A6-615/33-34 dated 5-12-33 re: the above, I have the honour to forward herewith letter No.L.B.1-84, 33-34 dated 14/18-2-1934 together with its enclosure addressed to you by the President, Kadur District Board, requesting sanction for the grant of Rs 10,000/- for the execution of well-works during the current year. The Amildars and the Deputy Amildar are applying for additional grants for drinking water wells undertaken through this Department during the Current year. As may be seen from the enclosed letter, there is no likelihood of the District Board providing funds by re-appropriation out of their current year's Budget grants for incomplete works. I request you therefore, to kindly obtain sanction of Government for utilising the sum of Rs 1500/- ordered to be set apart for incomplete well works as per your letter No.L.5513/V.P. 26-33-9 dated 23-1-1934.

Sir,

Adverting to correspondence ending with this office letter No. L.B. 1-84/33 dated 6-1-1934 requesting for the reasons stated therein for a special grant of Rs. 10,000/- for completing the incomplete well works now on hand etc, I have the honour to state that the whole correspondence was placed at the meeting of the District Board held on the 2nd and 3rd instant, when the two points Viz.(1) the subject of completing the incomplete well works now on hand and (2) the question of executing the well works by the Board were discussed at great length. After discussing in detail the proceedure adopted in previous years in regard to the utilization of the Government grant sanctioned for well works from time to time and also your letter No. L. 5512/V.P. 26-33-8 dated the 23rd January 1934 in the matter of sparing Rs. 4,000/- by reappropriation from the current year's Budget for well works, the Board opined that the distribution of the current year's Government grant is not in conformity with the definite agreements already arrived at and resolved that in view of the urgency and necessity for completing the incomplete wells and also in view of the very large number of works remaining to be carried out, Government be requested to sanction at least a sum of Rs. 10,000/- and make it available to the Board early to enable them to start the works without further delay. A copy of their resolution is enclosed herein for favour of information of Government.

I wish to mention further that on account of the Board's slender resources, it is not possible to spare by reappropriation any amount out of the current year's Budget for well works, Government having deleted the provision of Rs. 5,000/- made in their Budget for 1932-33, no amount was allotted for well works in the Board's Budget for the current year.

Under these circumstances, I request that Government be pleased to sanction a grant of Rs. 10,000/- to this Board for completing the incomplete well works before the close of the current year.

Correspondence ending with this office letter No.L.B. 1-84/33 dated the 2/3rd January 1934 addressed to the General Secretary to Government requesting under the circumstances explained therein for a special grant of Rs. 10,000/- to the District Board for the completion of all incomplete well works and further stating that the question of solving drinking water wells in rural areas will be placed before the Board for their consideration.

Resolution:- Deferred for tomorrow(2-2-34).

This Board is of opinion that the utilization of the well grant received from Government, this year towards the construction of fresh wells through a separate agency is opposed to definite agreements arrived at from time to time and the understandings between the President and the Deputy Commissioner in respect of utilization of Government subvension and requests that having due regard to these agreements and the urgency and necessity for completing the incomplete wells, Government be pleased to direct the transfer of well grant of this year to the District Board.
